  - The date of your birth (October 8<sup>th</sup>, 1984)

- Your old assignments are on the table in the front
- If you need help, ask your table partner to show you

## Step 4 – Including your collage

- Open your collage assignment (this should be saved in your Google Drive still)
- Copy the second slide that you made entitled “5 things that are important to me”
- Paste this slide into your new assignment
- Again, if you need help, just ask.

## Step 5 – Include your Timeline

- Put these two on a new slide either together or one new slide for each item
- For each event:
  - Include the date (be as specific as possible)
  - Include a brief description of what happened (1-2 complete sentences)
  - Include an analysis of how this has impacted your life (1-2 sentences)
  - Pictures as appropriate (real or from the generic internet search)

## Step 6 – Include your Soundtrack

For the slide you should include:

- A specific statement for how you plan to achieve this goal
- Link a clip of your song from YouTube that will play on this slide (the part you play must be school appropriate)
- Describe how this song reminds you of or motivates you to achieve your goal

## Personal Mission Statement

Write out your personal mission statement on this slide.  
This is the culmination of all the work you have done in this class.  
It should reflect who you are and include goals and values.

Remember, use clear language, keep it specific and measurable.

Include any relevant pictures as you would like.
